

EMAsphere

The trustworthy financial reporting
tool for CFOs

You deserve **reliable and up-to-date** financial reporting

Waste of time, errors, stress, ...
you should not feel blocked in your job

You deserve to have reliable reporting
at your fingertips to identify opportunities
and make decisions with confidence

EMAsphere - created by a CFO for CFOs

At EMAsphere, we understand the challenges you are facing in analysing your financial data. Our CEO, Hugues Vandepuette, was a CFO for many years and encountered the same problems as you.

Feeling under pressure, spending too much time collecting data? ... This is why we created EMAsphere: to solve your problems.

Take control of your reporting

Automated reports

Do not start from scratch. EMAsphere connects to your software and provides pre-configured dashboards that you can easily customise later.

Analysing & Forecasting

Show your added value as a finance professional. Dedicate your time to analysing data and anticipating the evolution of your business.

Data sharing

Share meaningful reports in one click. CEO, board members, managers, ... every user can benefit from a personalised view.

Focus on tasks that really matter

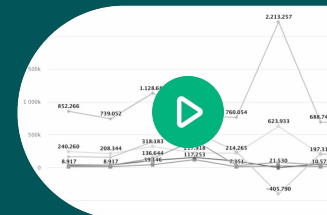

Consolidated reporting

Benefit from automated and consolidated reporting to dedicate your time to monitoring your entities performance.

Cash position

Cash is king so get a clear and up-to-date view of your cash flow.

Analytical reporting

Dive in the core of your company and identify where it is performing well & what can be improved.

We have delighted more than 10 000 companies

We used to work with a BI solution. We had to involve an external consultant whenever we needed to create a new report. Thus, we decided to switch to EMAsphere, which offers independent usage. I can now create reports on my own.

Sam Boribon

Finance manager | Qualifio

1

Connect your data

Our consultants take care of connecting your current **Accounting system** to EMAsphere.

2

Maximise your data

After few hours of training, you will be able to use EMAsphere independently and begin to take full advantage of your reports.

3

Report with confidence

That is it! Feel confident in your data-drive decisions and share data throughout your company knowing it is reliable.
